To whom it may concern

For some years we have used Print to Post International for the collection and delivery of our international mail, as well, more recently, as their printing service for the production of our office stationery and marketing materials.

By using PPI to distribute our mail we not only save money (approximately 20% from using Royal Mail directly) but also save valuable time as we do not have to sort or frank our post. PPI also supply us with a free collection.

We have also found PPI's printing prices to be competitive and the finished items to be of appropriate quality.

PPI are also an English UK Corporate Member and in our opinion supply a reliable and professional service for both our printing and distribution requirements. We would have no hesitation in recommending them to other organisations.

Yours Faithfully
